

Box Project Member Testimonial

We have been a member of The Box Project for over 3 years now and are matched with a wonderful single mother and her now 12 year old son in Mississippi.

When we signed up for this project I didn't know what to expect, but felt like it would be a wonderful lesson for our three children who have been fortunate to have just about everything they have ever wanted and certainly enough food to eat each night.

We are two families with totally different backgrounds but we have managed to become wonderful friends. They are always appreciative of everything we do for them and also very understanding when we have to say no to a request we don't feel like we can fill.

With our encouragement the mother is now taking classes for her GED with the hopes of being able to get a job working with computers.

Our children are very involved in deciding the things we send each month and with picking out birthday and Christmas gifts and feel really good about giving someone else gifts they might not otherwise get.

I believe the lessons they have learned from this are invaluable in helping them become caring, compassionate adults.
