

Box Project Member Testimonial

Our family has had an adopted family in Mississippi for about 8 years now. We were matched with this family through The Box Project from an article that I had read in "Better Homes and Gardens" magazine. The best part of this arrangement is that once you are matched up with a family, everything between you is direct - your packages and letters are sent directly to their home and they correspond directly with you.

Keeping in touch is a priority as The Box Project sees their mission as developing friendships as a support and help to encouraging these families to improve their situation. When we first started our Box Project family had 3 boys, 2 in fifth grade and one in high school. We have watched them grow up, go to college (all 3 are in college now) and the family has grown by 5 grandchildren, all living with the now grandparents!! While it may not be the situation we would have hoped for them, they are all working, kids are all in school and they are trying the best to deal with the life they have created. We have read about relatives moving in with them, being cared for through sicknesses, and dying. We have received pictures of their home, their children, proms, and renewed wedding vows. It has been EXTREMELY eye-opening and REWARDING to be a part of this family's life and I highly recommend it.
